

MAREX 440

GOURMET CRUISER

CONCEPT OVERVIEW

BOAT FOR THE FAMILY

The Marex 440 is a new generation of cruisers with contemporary design lines and several new innovations. At 13.70 metres in length and with a maximum beam of 4.27 metres, this new boat is set to become the brand's flagship.

The idea is to create a family boat with a focus on easy living and have the cruise experience of a much larger vessel. The largest kitchen in its class, beach club next to the water, two bathrooms and a washer machine are examples of this idea.

The Marex 440 Gourmet Cruiser is the result of the collaboration between Marex in-house design team and Slovenian studio VOM Creations Yacht Design. Naval architecture was provided by Nikl Design and Engineering by Alpha Creations.

MULTIFUNCTIONAL COCKPIT

ERGONOMICS AND TRANSFORMATIONS

The cockpit features a U-shaped sofa with a table for up to 10 persons. The table can be lowered, converting the cockpit into a large sunbathing area, or a sleeping bed. On the opposite side, a choice of a sofa or a multifunctional BBQ-area.

The main salon entrance can optionally include a sliding door and an electrically retractable window. It creates an open social area to enjoy the bar.

Optional bar chairs can be turned and adjusted in height depending on use with the bar or dining table.

CANOPY SOLUTION

PRACTICAL BOAT FOR EVERY CLIMATE

The model has the fastest and easiest way to close the open cockpit deck, existing in the market.

The curtains are hidden in the targa arch and just slide around. The canopy can be fastened with just ONE single grip. No buttons or rubber bands.

From an open cruiser to a completely closed boat in less than a minute!

This solution allows the use of air-conditioning (or heating) throughout the deck making the 440 Gourmet Cruiser suitable for every climate.

FUNCTIONAL KITCHEN

PARADISE FOR GOURMANDS

One of the 440 Gourmet Cruiser's innovations is its kitchen. Marex created a chef's dream with an enormous U-shaped kitchen layout – the largest in its class.

It features an oven/microwave, double sink, induction cooker and dishwasher. It also has an opening in the countertop for storage of 4 beer/ drink cases of 24 boxes each.

The Scandinavia version can propose an additional dining area with a big sofa and two retractable stools instead of a port side kitchen.

The solar panels provide enough capacity to keep the 220-litre refrigerator and 100-litre freezer running permanently without shore power.

PROPULSION AND TECHNOLOGY

The 440 can be equipped with a pair of Volvo Penta engines. Either 2 x Volvo Penta D6-440HP DPI Sterndrive, 2 x Volvo Penta D6-480HP IPS-650 or 2 x Volvo Penta D6-480HP V-Drive.

Together with an optional large generator and gyroscopic stabilizer, they maximise cruising comfort.

The fuel tanks (2 x 595 L), water tank of 780 L, battery capacities (8 x AGM 100 Ah + EXIDE 60 Ah for generator) and optional solar panels make a boat perfect for long family holidays on the water.

HELM AND CO-PILOT SEATING

TECHNICAL QUALITY

The 440's helm station can be fitted with three 12-inch screens that monitor engines, navigation and even the anchor with an additional camera. The anchoring is normally requiring a family member to monitor, but in this boat, it can be done by the captain alone. The family is the crew onboard, they also have to have an easy life.

A sofa opposite the helm allows the whole family to enjoy the view of the cruising. A foldable table creates a portable office area.

The 440 even has two side sliding doors. This allows to get freedom of movement for the captain and passengers, also letting in a fresh breeze in. Together with an open sunroof, this increases cruising enjoyment enormously.

LOWER DECK **LIVING AREA**

WISE USE OF SPACE AND ACCOMMODATION

The Marex 440 Gourmet Cruiser is available with two, or three cabin layouts. The two-cabin solution has a forward Master Cabin with a large 1,70 x 2,00 m bed, a very generous bathroom and a huge additional storage under the bed for long cruises.

The second guest's cabin comes with its own bathroom, a 1,80 x 2,00 m bed, a comfortable sofa along the window line, and a changing room area at the entrance and can be delivered with a laundry machine (washer/dryer).

OPEN-AIR DECK INNOVATIONS

BOW DECK AND SWIM PLATFORM

Marex has brought the beach club idea to the family boats. At the platform there is a large sitting area with integrated soft backs for enjoying the closeness to the sea. The swim platform also features optional steps when submerged, making getting in and out of the water safe and easy. A hydraulically operated bathing platform allows to carry a tender during cruising. That makes 440 a perfect boat for long family holidays on the water.

The 440's bow area features a large sunbed. This waterproof cushion floats on water serving as water toy and can carry several people on the water. It features also a lift up seat back.

INTERIOR COLOUR STYLE

AESTHETICS WITH PRACTICALITY

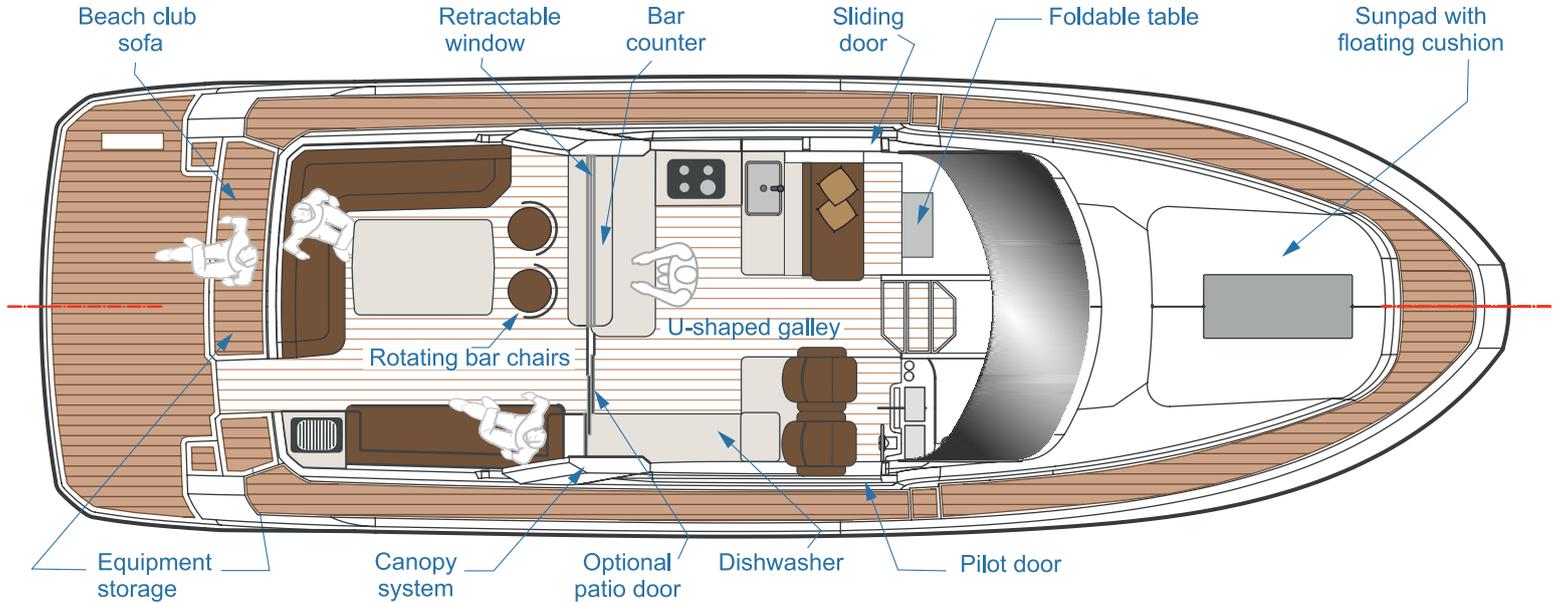

The interiors of the Marex 440 Gourmet Cruiser are designed to the highest standards of quality and attention to detail.

Designed to satisfy the tastes of the most demanding owners, Marex offers a lot of finishes and materials. The style features two interior style themes: modern light wood and classic dark walnut wood.

Other visual and tactile high points are the beige and pale grey surfaces.
