470 Regina

A once-in-a-lifetime navigation experience

As a result of careful proportion choices between the inner and outer space, 470 Regina is characterized by innovative features, outstanding performance, and high-quality equipment.

470 Regina respects the concept of sportiness and the sinuous lines of the FIM open yachts range, to offer a once-in-a-lifetime navigation experience.

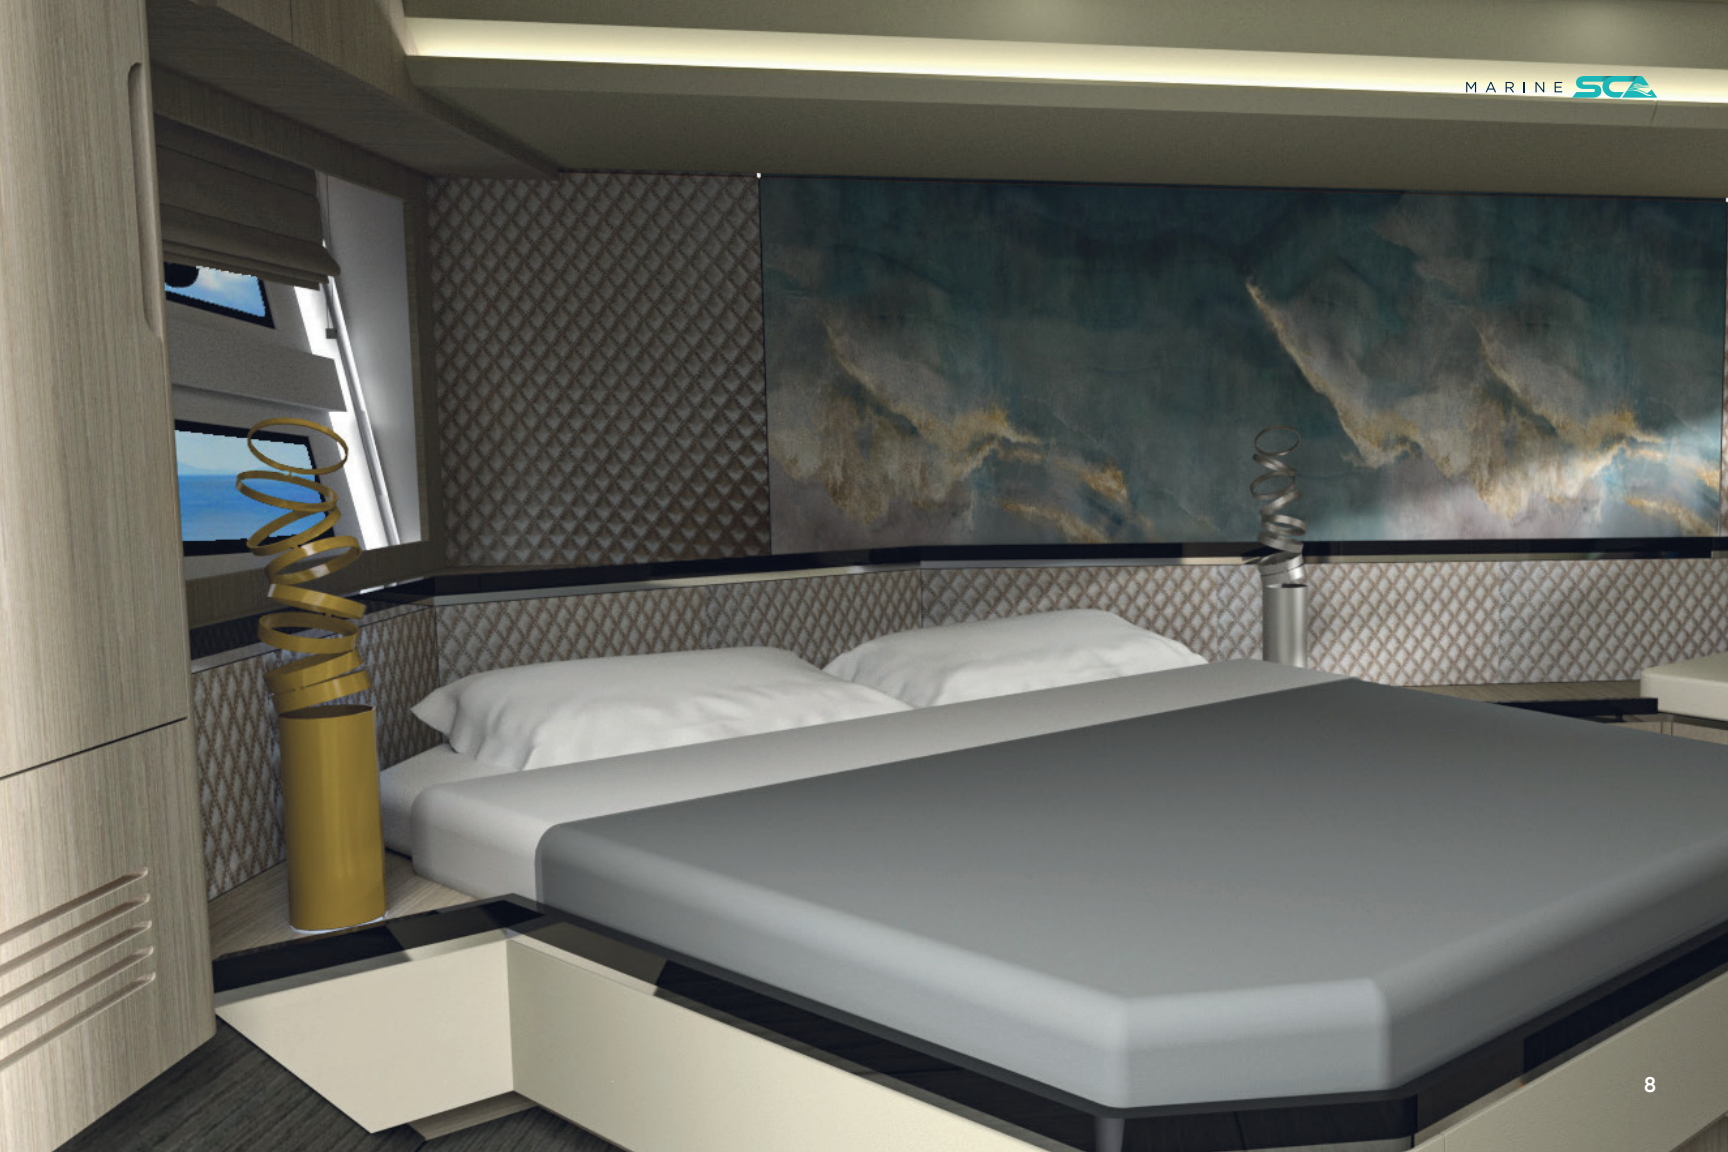

A different view of outdoor spaces

470 Regina is conceived to make the most of outdoor spaces, thanks to the movements studied aft and bow. The bow sun lounge, translating sideways, creates a wide cockpit, offering the opportunity to spend time together and have fun.

The aft cockpit can expand through the sundeck dividing mechanism, creating a spacious central area, which ensures accessibility and liveability.

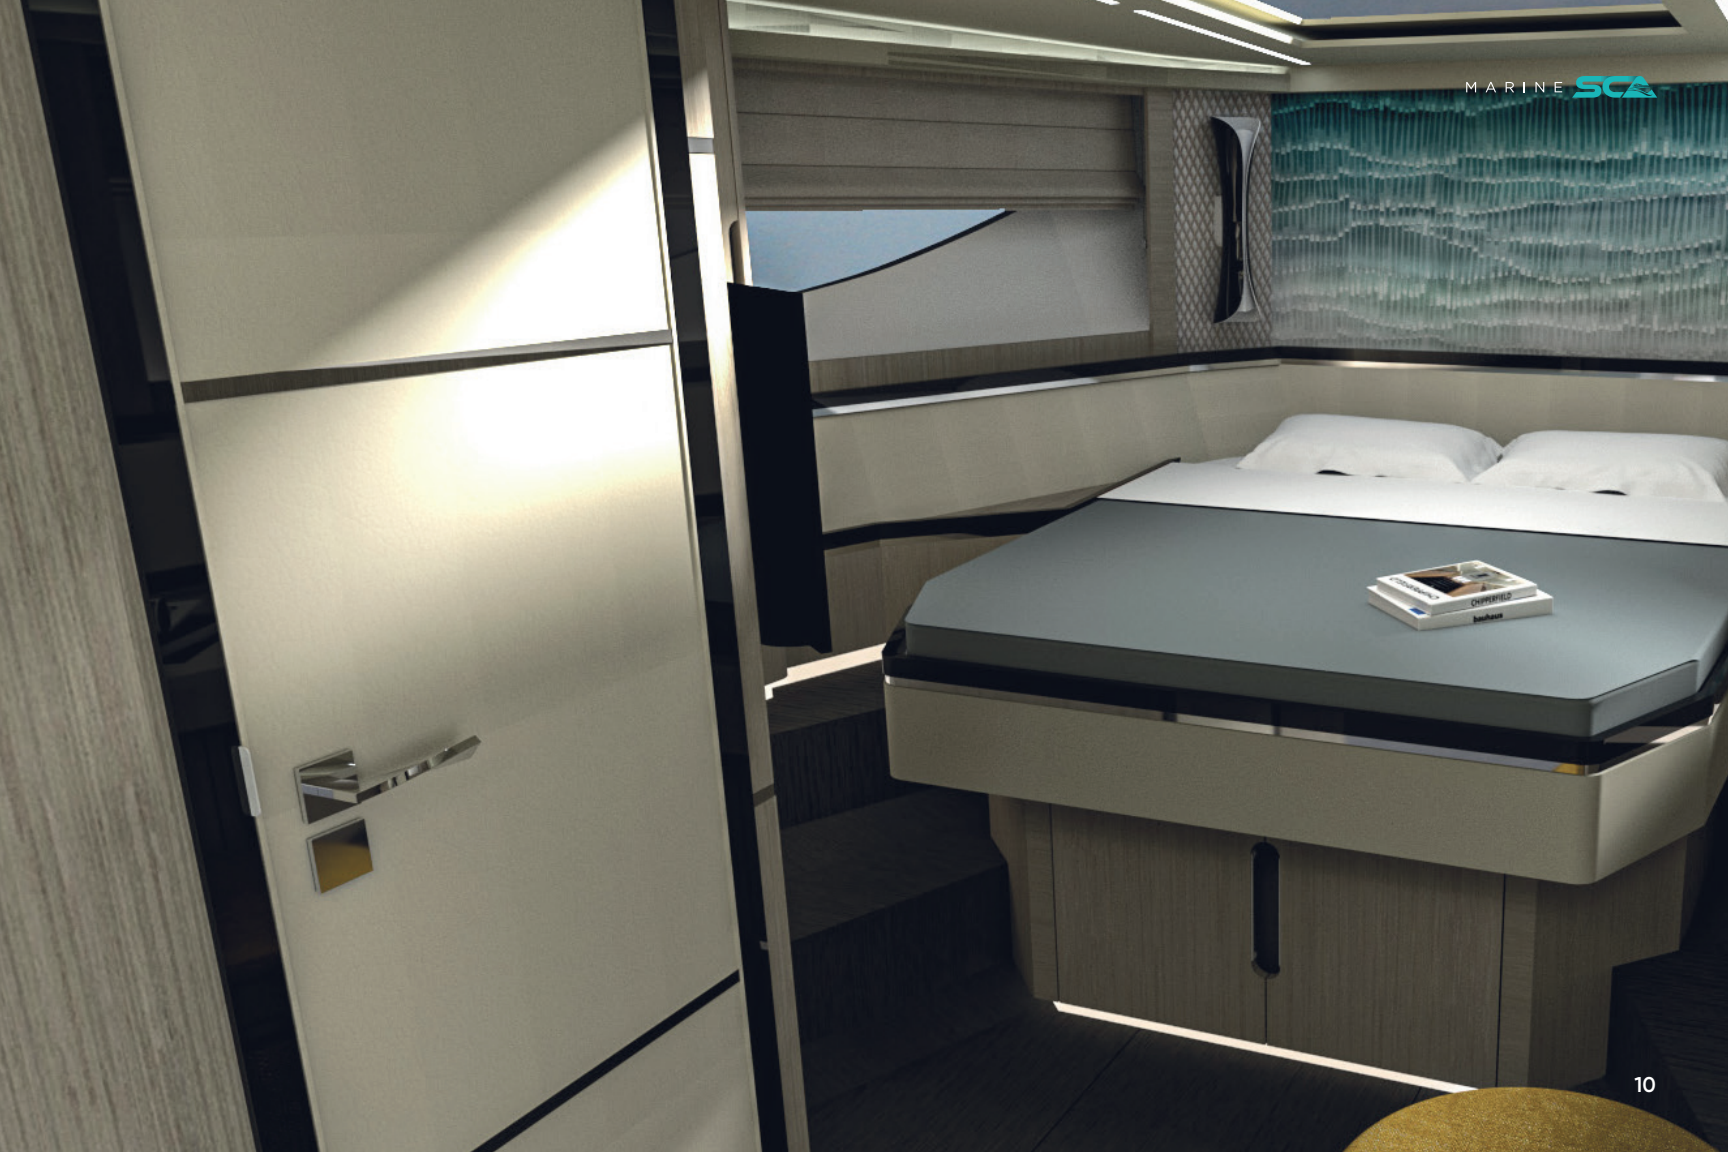

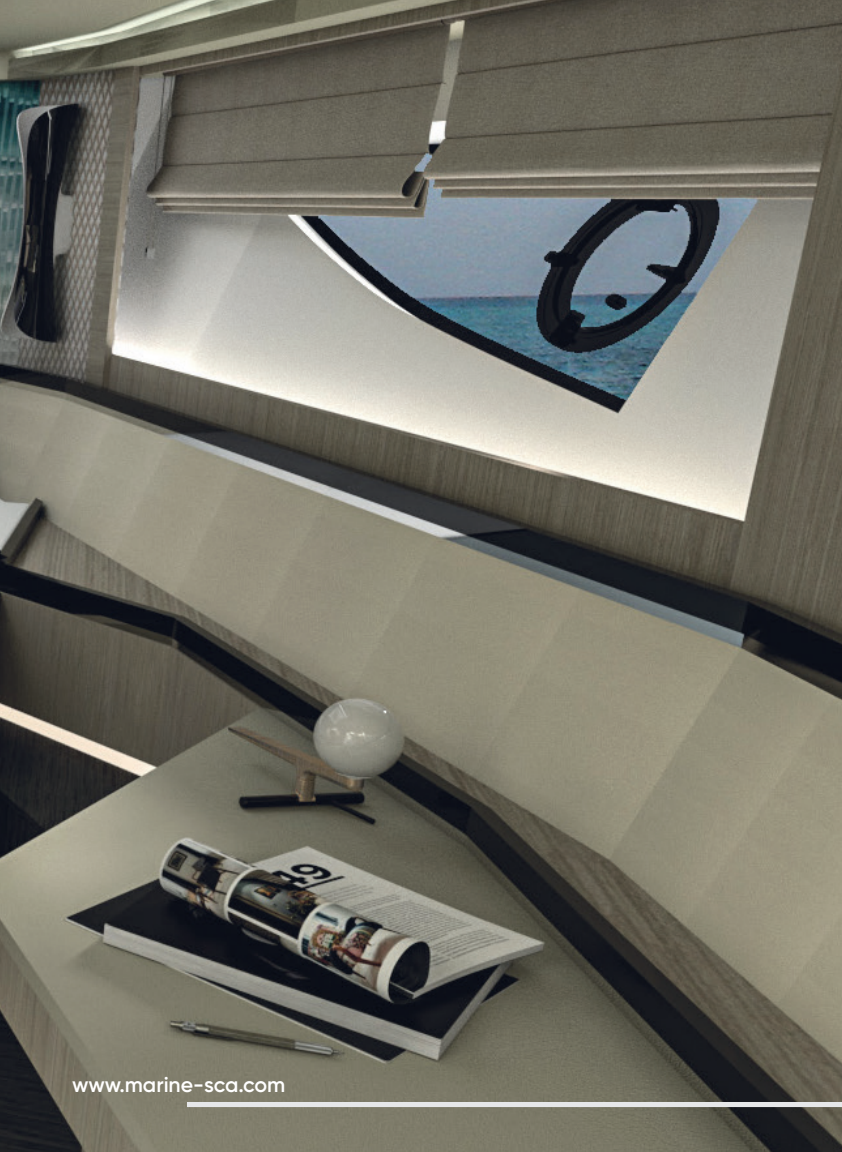

When style meets functionality

The blend of elegance and comfort expresses its full potential in the spaces below deck.

The standard interiors layout features two master cabins equipped with spacious double beds and numerous compartments and wardrobes.

The central cabin boasts a relaxation area equipped with a sofa next to the bed and a bar corner.

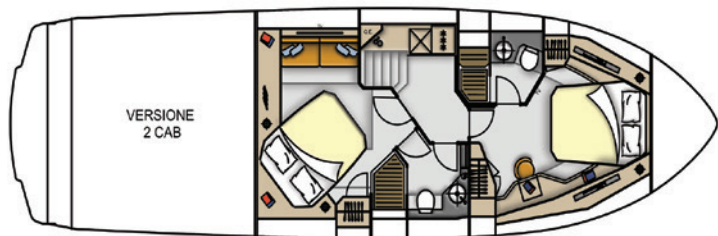

In the bow master cabin, you can configure a breakfast/office, bar, or vanity area and appreciate a large window sky view on the ceiling.

Both cabins are very bright thanks to the windows on the hull that give a welcoming appearance to the ambiance. Each cabin has private access to the toilet.

The choice of materials and elements reflects the latest market trends.

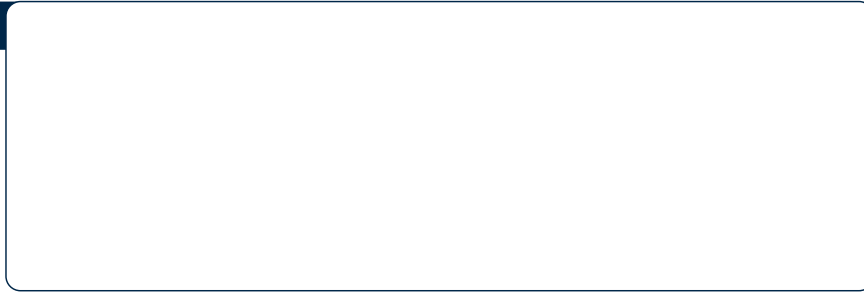

The color solutions and high-quality accessories such as leather and painted steel reflect the best qualities of Made in Italy.

LOA	15,10 m
